Make:	Junttan	Model:	PM20
Year:	1986	Plant ID:	PN010
Plant Description:		Capabilities:	
<p>The Junttan PM20 is a hydraulic piling rig for driving steel, concrete & timber piles. The rig can self-pitch piles up to 15m long without the need for predrilling. It boasts increased manoeuvrability comparative to our larger PM20LC due to its smaller stature and weight, making it superior on difficult to navigate sites. The PM20 houses a 5T ram weight that can be deployed at a height of 1m.</p>		<ul style="list-style-type: none"> • Pre-cast Concrete • Driven Timber • Steel Casing • Steel Piles

Operational Weight:	52,000kg	
Traveling Length: (Transport)	17,400mm	
Working Length: (Centre of Pile to rear of counterweight)	11,400mm	
Traveling Width: (Transport)	3,100mm	
Working Width: (Tracks Extended)	4,200mm	
Traveling Height: (Transport)	3,750mm	
Working Height: (With & without leader extension)	22,000mm	
Aux Winch Capacity:	5,000kg (With Load cell)	
Hydraulic Hammer		
Model:	HHK 5A	
Max Stroke:	1,000mm	
Blow Rate: (Per minute)	40 - 100	
Ram Weight:	5,000kg	
Total weight:	8,700Kg	
Additional Features:		
Annual 'Pile Safe' & NDT		
ROPS & FOPS		
360deg Cameras		
Service history and plant RA		
Enviro PANOLIN Hydraulic oil		
E- Stops & Load Cells		
Access Handrails and platforms		
Aux Line Restraint Device OEM
